```

W03-P2: show reviews[0] info when DOM is loaded

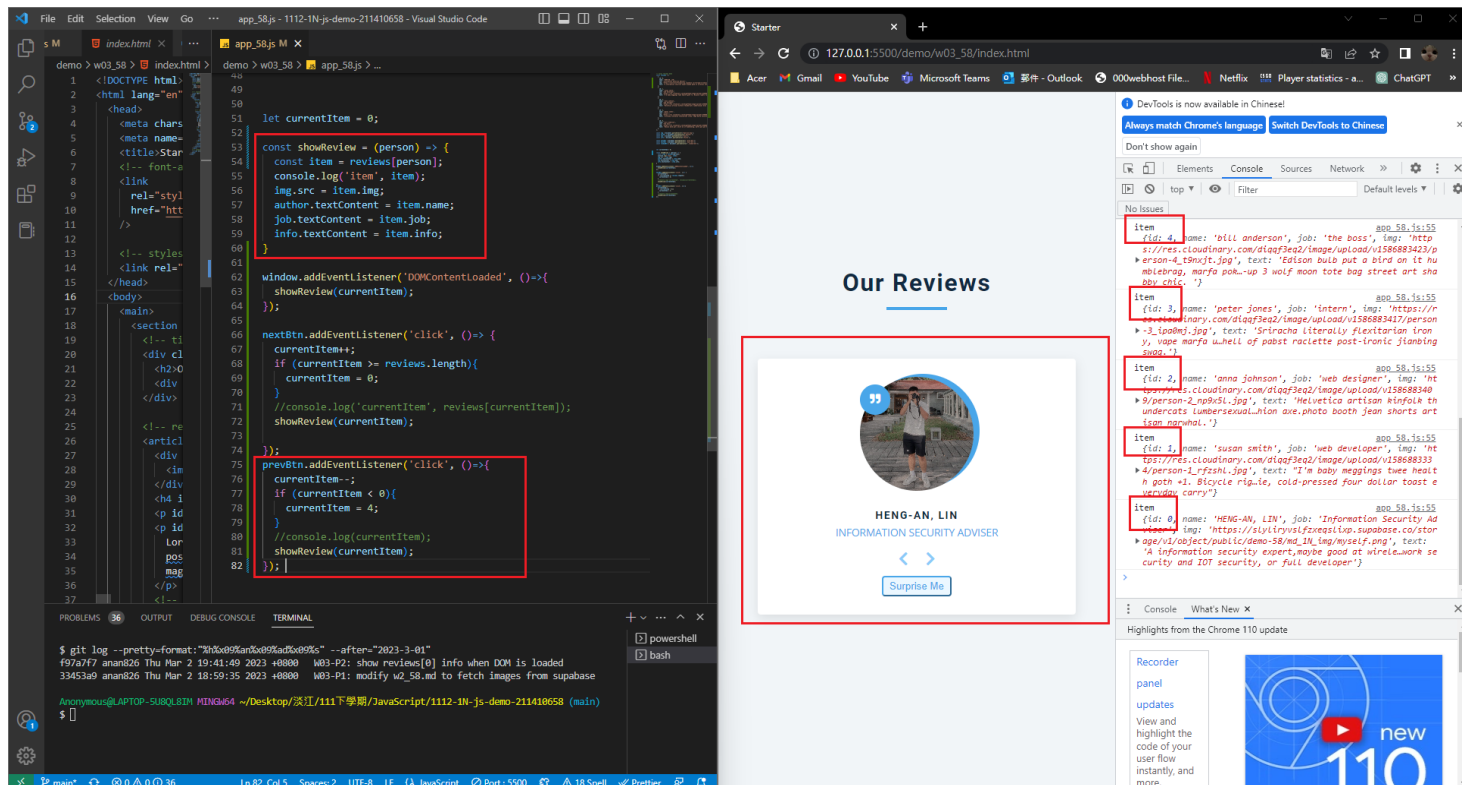

f97a7f7 anan826 Thu Mar 2 19:41:49 2023 +0800 W03-P2: show reviews[0] info when DOM is loaded

W03-P3: implement next button and show the sequence in console.log

69e4587 anan826 Thu Mar 2 20:30:30 2023 +0800 ### W03-P3: implement next button and show the sequence in console

W03-P4: implement prev button and show the sequence in console.log

e536fea anan826 Thu Mar 2 20:32:03 2023 +0800 W03-P4: implement prev button and show the sequence in console.log

The screenshot displays a web development environment with three main components:

- Code Editor (Left):** Shows the `index.html` file for `app_58.js`. The HTML includes a `<div>` with a `randomBtn` and a `nextBtn`, both with `click` event listeners. The `randomBtn` listener calls `showReview(Math.floor(Math.random() * reviews.length))`. The `nextBtn` listener calls `showReview(currentItem + 1)`. The `showReview` function is defined to display a review from the `reviews` array.
- Browser (Middle):** Displays the rendered page at `127.0.0.1:5500/demo/w03_58/index.html`. The page has a heading `Our Reviews` and a card for `Peter Jones` with the title `INTERN` and a `Surprise Me` button. The card is highlighted with a red box.
- DevTools (Right):** The `Console` tab shows the `showReview` function being called with `0` as the argument. The `Elements` tab shows the `randomBtn` element.

W03-P6: add your info as reviews[0] and show it
